I would just change “enhancements” to “protection.”

Subject: Topics for pre-brief

Morning,

Michelle is having a 30 minute check in next Tuesday with the new Seattle District Colonel after her TRAR meeting. She wanted UMs to provide her with some general topics that EPA and the Corps are working on. I have to provide those at a meeting at 2:330 on Monday No time for deep dive, just bulleted items that she could use for the conversation. Besides HTL think we should mention NWP work as well. Other areas we should highlight? Jeff will handle enforcement? Can you send me something by noon on Monday.

An example:

High Tide Line: EPA/Corps/NMFS worked together for over a year to develop a set of recommendations on shoreline habitat enhancements including recommendations for which datum to use for HTL.
